Assunto: Support General Strike 24th November 2011 - Portugal

Dear friends,

On behalf of the General Secretary Isabel Pallarès and the National Board of Intersindical-CSC we want to express the solidarity of the Catalan Working Class to Portuguese workers and specially to CGTP-IN in this new call for general strike on November 24Th.

Hard times are coming as we can see in whole Europe. We can't allow the working class pay for the greed of a few and the only way we have is to fight for our rights in order to keep the welfare state that we gained with the struggle and the blood of the last 150 years.

It's not true there is no money. Banks, corporations and the wealthiest people are not facing their responsibilities while the cuts and the burden of the crisis is on the shoulders of the workers.

We expect this general strike in Portugal to be successful as another step to stop the madness of the Capital.

Fraternally,
